Monal Sutar

Programmer Analyst Trainee @Cognizant | C, .NET, React, Next JS,
IoT | Creating Reliable & Scalable Solutions
Kolhapur, Maharashtra, India

Summary

I am a Computer Engineering graduate from Rajarambapu Institute of Technology with a strong interest in full-stack development and modern technologies. Over the past years, I have gained hands-on experience through multiple real-world projects using Web Development technologies, and MongoDB, building a solid foundation across both front-end and back-end development.

I have developed functional and user-centric applications, including a complete billing system (Quick Bill), authentication-based systems, and other interactive web applications. My work reflects clean UI design, practical problem-solving, and the ability to build efficient full-stack solutions.

Alongside my academic journey, I have explored application development using Flutter and Android, expanding my skill set beyond traditional coursework. I enjoy learning new technologies, experimenting with tools, and continuously improving my development approach.

As a recent graduate, I am excited to apply my skills in real-world environments, collaborate with diverse teams, and take on meaningful challenges in software engineering and development.

Experience

Cognizant

Programmer Analyst Trainee

January 2026 - Present (5 months)

India

Codexlabz Technologies

MERN Developer

January 2025 - June 2025 (6 months)

Maharashtra, India

GDSC RIT

Application Developer

October 2023 - June 2025 (1 year 9 months)

India

As an Android team member at GDSC, I help create cutting-edge mobile apps. Collaborating closely with peers, I write clean code in Flutter and Android, ensuring seamless performance across devices. Through testing and mentorship, I contribute to a culture of innovation and learning within the GDSC community. Proud to be part of shaping the future of tech!

Oasis Infobyte

Intern

December 2023 - January 2024 (2 months)

India

Bharat Intern

Intern

December 2023 - January 2024 (2 months)

Maharashtra, India

CodeClause

Intern

December 2023 - December 2023 (1 month)

India

CodSoft

Intern

November 2023 - December 2023 (2 months)

India

During this 1 month java development internship, I completed Number Game, Student Grade Calculator, and ATM projects. Thankful for the CodSoft for giving me this opportunity.

All India Council for Technical Education (AICTE)

Intern

October 2023 - October 2023 (1 month)

India

I have completed my AICTE Android Virtual Internship at Google Developers.

TechnoHacks EduTech Official

Intern

September 2023 - October 2023 (2 months)

India

During the TechboHacka Web Development Internship, I have developed some applications like Stopwatch Timer, Currency Converter and a color changing Login Page. Enjoyed during this internship and explored also.
